CREDIT FOR PRIVATE LESSONS

Students who take private lessons on their band instrument from a qualified instructor will, in general, surpass their classmates who do not do so. While not required, We do encourage students to take lessons privately. We will waive the requirement of keeping a practice record for those students taking private lessons since a private teacher will require students to prepare additional material to develop you musicianship. Practice time is a must even with a private teacher!

This is to certify that _____ is currently

and has been doing so since about _____. I understand that this exempts the student from certain requirements, and I will try to spend SOME lesson time on band music, if needed. I will attempt to notify Mrs. Wunsch or Mr. Mendez if lessons are discontinued.
